These include the persistent conflicts between Israel and its neighbors the state of war between Lebanon and Israel and decades long conflict between Israel and the Palestiniansthe unresolved Cyprus problem, and finally the ongoing unrest in Syria and its impact on the neighborhood. Marketos, 05 July Developments of the Leviathan field -resource potential estimated at bcm- and others have been jeopardized or unable to proceed as a result of numerous political and regulatory obstacles such as the allocation of discovered resources into exports and domestic market, taxation and administrative uncertainties, and an anti-trust ruling stemming from the concerns that the two leading companies active in the Israeli upstream sector constitute monopoly.

ThiswouldalsopresentanopportunityforEurope,wheregas-importrequire This project may not be financially viable but was meant to circumvent the more cost-effective route to Europe via Turkey. Indeed, Cyprus constitutes the easternmost defense bastion and border of Europe. It is hard to imagine how Cyprus would be

motivated to become united and how Israel and Lebanon could resolve their border dispute.

Hydrocarbons will be a dominant factor in the future of the countries of the Ea

When Not to Obey Orders. However, each option faces several technical, administrative, commercial, security, legal and political challenges with geo-political implications.
