Moths, it seems, have excellent taste, with silk, cashmere, sheepskin, feathers and pure wool particular favourites. A very small portion of my stash. Getting stung by one is all that would need to happen to someone and they too would know that it is not just an ordinary hair that is naturally moving from air movement.

on August 23, at I work in a museum, and we're super moth
aware - any 'new' textiles go into an industrial freezer for a
stretch before they are allowed anywhere near the rest of the
collection. They had spread from that main problem area and
just begun attacking 4 other rugs.

have thought often and prayed for the elderly or the poor who
can not help themselves out of. Dont stress.
