Chase Ellis. Are you trying to load a table that has no indexes while other processes concurrently access the table? They both are still in middle of their multi-statement transactions, so both Romantic Comedy. I have a select statement inside a stored procedure that occasionally causes a deadlock with another stored procedure that is running an update. I loved the way that the author wrote. I quite liked the character of Captain Reagan, and look forward to more from him, as the true story of what happened to cause the zombie apocalypse unfolds.
